It is hereby RESOLVED that pursuant to Section 109 of the Delaware General Corporation Law, 8 Del. C. § 109, and Article IX of the Company’s By-Laws, the Company’s By-Laws are hereby amended by adding a Article XI as follows:

**Section 1.** Notwithstanding anything in these By-laws to the contrary, the adoption of any stockholder rights plan, rights agreement or any other form of “poison pill” which is designed to or has the effect of making an acquisition of large holdings of the Company’s shares of stock more difficult or expensive (“Stockholder Rights Plan”) or the amendment of any such Stockholder Rights Plan which has the effect of extending the term of the Stockholder Rights Plan or any rights or options provided thereunder, shall require the affirmative vote of all the members of the Board of Directors, and any Stockholder Rights Plan so adopted or amended and any rights or options provided thereunder shall expire no later than one year following the later of the date of its adoption and the date of its last such amendment.

**Section 2.** Section 1 of this Article shall not apply to any Stockholder Rights Plan ratified by the stockholders.

**Section 3.** Notwithstanding anything in these By-laws to the contrary, a decision by the Board of Directors to amend or repeal this Article shall require the affirmative vote of all the members of the Board of Directors.

This By-law Amendment shall be effective immediately and automatically as of the date it is approved by the vote of stockholders in accordance with Article IX of the Company’s By-laws.

**SUPPORTING STATEMENT**

I believe that poison pills adopted by the Board of Directors without ratification by stockholders can deny stockholders the ability to make their own decisions regarding whether or not to accept a premium acquisition offer for their stock and, under certain circumstances, could reduce stockholder value. In my view, when one or more directors do not support a decision to adopt or extend a pill, the board should not make such a decision without obtaining shareholder ratification for the pill. Additionally, I believe that it is undesirable for a poison pill not ratified by the stockholders to remain in place indefinitely without periodic determinations by the Board of Directors that maintaining the pill continues to be advisable.

The proposed By-law amendment would not preclude the Board from adopting or maintaining a poison pill not ratified by the stockholders for as long as the Board deems necessary consistent with the exercise of its fiduciary duties, but would simply ensure that the Board not do so without the unanimous vote of the directors and without considering, within one year following the last decision to adopt or extend the pill, whether continuing to maintain the pill is in the best interests of the Company and its stockholders.

I urge you to vote “yes” to support the adoption of this proposal.
