

**Research Assistant Needed:**

Approximately 20-25 hours per week to conduct research regarding climate change issues. The specific focus of the research will be on carbon dioxide emissions, cap & trade systems, and carbon capture and sequestration policies, regulations, and statutes worldwide.

**Start date** flexible. **End date** flexible (research needs to be completed by mid-June and preliminary draft report by late June, editing, etc. through mid-July).

**Hourly salary:** negotiable.

**Project includes:** Research, analysis, drafting of a report. Report is due mid-July. There will be ample time for bar study if necessary. RA will work closely with Wendy Jacobs, Clinical Professor & Director of HLS Environmental Law & Policy Clinic. If interested, please send email describing relevant background, availability, and resume to [wjacobs@law.harvard.edu](mailto:wjacobs@law.harvard.edu) **as soon as possible.**
