

*Justice for Palestine* (JFP) is a student group founded in 2000 after the start of the second Intifada in the Occupied Palestinian Territories. JFP is a community of HLS students concerned about the lack of campus-wide debate about the Israeli-Palestinian conflict and the at large misperceptions of the fundamental issues related to Palestine. JFP is committed to a secular, humanist, and legalistic approach to dialogue about Israel/Palestine and seeks to advocate the rights of the Palestinian people.

JFP engages in raising awareness within the Law School and in promoting dialogue and exchanging ideas on-campus among people and groups of various backgrounds, experiences, and views. We are looking forward to your joining us for another year of events and lively exchanges.
